Word Problem: onscreen?

Directions: Use the Design Recipe to write a function 'onscreen?', which takes in the x-coordinate and checks to see if Sam is safe on the left AND safe on the right.

Every contract has three parts; ituactionname domain range; what does the function do?! Examples Write some examples, then circle and label what changes (EXAMPLE (Tunctionname domain range		and Purpose				
Inctionname domain range what does the function do? Examples Write some examples, then circle and label what changes (EXAMPLE (Intelianname domain range what does the function do? Examples Write some examples, then circle and label what changes (EXAMPLE (every contract	nas inree paris				
what does the function doe? Examples Write some examples, then circle and label what changes (EXAMPLE (what does the function doe? Examples Write some examples, then circle and label what changes (EXAMPLE (;	:
